PRESS RELEASE

Super sprinter to Christina Watches - Onfone

Christina Design London informs, that Danish watch designer and owner of Christina Design London and Christina Watches - Onfone, Christina Hembo, today has hired the Italian Bike rider and Superstar Angelo Furlan, double stage winner in the Vuelta a Espana and having won many other important victories.

"Immediately when I heard of Christina's new team and her regeneration of Michael Rasmussen, I believed that this team was extraordinary and excited me. Christina is a breath of fresh air in a business, where we are not at all used to young women as team owners. I had no doubt, when I got Christina's offer – this team was a team which I could not resist and I simply had to go for the chance. From the sideline I have seen the team taking shape and it is my evaluation, that Christina Watches – Onfone by no comparison by far is the strongest Danish Continental team. My job is clear. Every time a race will be decided in a sprint, I am expected to win races and I believe, that 2011 will be a year where you will see me as the winner quite often – also in PostDanmark Rundt, which is the teams highest priority in 2011, says Angelo Furlan.

"It is unbelievable. Our team Christina Watches – Onfone has succeeded in signing one of the world's strongest sprinters and get him to race in Denmark! Furlan has for the past 10 years been a fantastic sprinter for strong Pro-Tour teams, latest at Credit Agricole and Lampre. I am so proud, that my team now is so attractive to ride for, that even an established Pro-Tour rider prefers to ride for me. Danish races are often won by sprinters and Furlan is in discussable by far the strongest sprinter in the Danish races", team owner Christina Hembo says.

"We now have 15 signed riders and we are allowed a maximum of 16 riders. Many profiles have applied and now we will give our selves the time needed to decide wisely on who will fit our team best".
